Finish:, 6.00 a.m.

Gas transfer point

VHP

THE

Flansch¹

VGS Storage-Hub

Jemgum

Etzel

The storage capacities

shall be the subject matter of one single storage contract with the related characteristic logic of the injection and withdrawal characteristic.

may be the subject matter of several storage contracts, whereby the contracts have different characteristic logics of the injection and withdrawal characteristic.²

Version of the General Terms and Conditions

The storage contract shall be continued on the basis of the currently valid General Terms and Conditions of VGS for the Storage of Gas at the Underground Storage Facilities operated by VGS, version of 1 April 2025.

The Storage Contract may be continued on the basis of the General Terms and Conditions of VGS applicable for the respective delivering storage contract.

Declaration of consent

I do accept the Terms of Service for the Support in the Procurement/Transmission of Storage Capacities by way of legal Succession of 1 October 2022. I know that when the request is processed, a service fee will be due in accordance with number 3 of the Terms of Service, which I also accept by affixing my signature below.

¹ In the case that no transfer point at the Flansch has been selected, all storage facilities are taken into account accordingly.

² The contracts may not be combined subsequently, and therefore have to be nominated separately.
